

Investigative Sites

NCRA maintains an investigator Database to assist us in identifying clinical research sites for Sponsors that do not already have sites lined up for their studies. This is not a frequent occurrence for us as many times Sponsors have preferred sites. Occasionally however, they do ask us to identify sites for them. To that end, we ask that those wishing to be included in our database please follow the procedure below.

REGISTERING FOR NCRA'S INVESTIGATOR DATABASE:

- 1) Fill in the attached form electronically (Adobe acrobat is needed) or print the form and complete.
- 2) Forward the hardcopy to us here at NCRA with supporting Investigator CV's.

We ask that you send a hard copy rather than an electronic version to prevent any potential problems with formatting losses. In addition, we do not accept electronic CVs. Upon receipt of your information, we will add your site to our Investigator Database. When contract needs dictate, we search the database and call sites as needed.

Please mail completed profiles, CVs and any brochures you feel are relevant, to:

Attention:
Investigator Database Manager
NCRA
74 East Main Street
Norwich, NY 13815

We will contact you periodically for updates. If we do not receive updated information when requested, your site may be removed from the database due to outdated information.
Thank you for your interest in NCRA!

NCRA Investigator Site Profile

Site Name

Address

City State Zip Code

Site Phone Number Site Fax Number

Site Website

Main Contact Person's Name and Title:
